NEWS from the COUNTY

Caliente

CALIENTE, Nev., Dec. 10—Mr. and Mrs. Frank Beddow left on No. 1 Friday night for Gallup, N. M. Mr. Beddow received word that his mother is very ill.

A tramp by the name of O'Brien, was run over and killed last Thursday night. He was picked up after No. 3 passed over him. He was buried here Monday.

Mrs. Clara Thompson, living with Yoacham's is suffering with diphtheria.

Mrs. Fred W. Cram entertained at 500 last Thursday afternoon. A large number attended and a delicious luncheon was served after which all departed.

Mrs. A. Foster returned from California last Saturday on No. 2.

Mrs. Chas. Stewart has been on the sick list this week.

Mrs. L. L. Burt left last Wednesday on No. 19 for Las Vegas, where she will have some dental work done.

Hubert Chanslor intends to leave in a short time for Wonder, Nevada, where he has work.

Ray Hanners came from Los Angeles Wednesday for a short visit.

Mrs. Roy Taylor has had grippe the past week.

Roadmaster Rice returned Thursday from Salt Lake.

Wm. Brannan is here visiting his brother-in-law, Justice Palmer.

Wm. Adams is employed at the Railroad Bar.

Six cars of the Pioche train left the track this side of Olson's ranch. The train was coming from Pioche last Monday afternoon.

Mrs. B. A. Keys returned Friday on 19 from Tintic, Utah.

Mr. J. Williams has been sick for the past two weeks.

Mrs. Cy. Land is reported much better and is expected home soon.

FIRE THREATENS THE PIOCHE LAUNDRY PLANT

A fire in the Pioche laundry this afternoon caused a call for the fire fighting equipment. The blaze was extinguished, however, by a bucket brigade before the fire wagons arrived, and the damage was slight. An explosion of gasoline caused the fire.

NORTHWEST NOTES

James Cotton, one of the best known cattle buyers in Nevada, if not in the entire west, died in San Francisco last week.

A shipment of forty-two carloads of cattle and one of horses was made the first of last week from the Winnemucca, Nevada, stock yards.

In order to promote drill work, a first aid club has been founded among employees of the Nevada Consolidated company at McGill, Nevada.

The monthly report of the secretary of the Reno Clearing House association for November of this year shows a substantial gain over that of 1914.

Mr. and Mrs. William Lyons and Claude Scales, a boarder at their home, are dying in a hospital at Tacoma as a result of eating toadstools.

H. E. Morion has been convicted of having struck Constable Otis Storm of Rochester, Nevada, over the head with a piece of drill steel, inflicting a dangerous wound.

The directors of the Minden (Nevada) Butter Manufacturing company, at a recent meeting decided to enlarge the plant of the creamery and install new machinery.

Charles McDeid, one of the pioneers of Nevada, died recently at his home at Winnemucca following a stroke of paralysis which occurred while working in his yard.

Health conditions in Utah at present are better than ever before in the history of the state and there are fewer deaths from typhoid fever in this state than in any other.

Tom Lee, Chinese laundryman, was arrested at Pocatello, charged with selling opium. His place was searched and a quantity of the drug taken possession of by the police.

Half a million dollars taxes due for 1915 remained unpaid in Salt Lake county, Utah, when the time limit expired December 4. The delinquents will pay 3 per cent penalty.

W. L. McGregor, of Eureka county Nevada, arrested last summer on the charge of selling whiskey to Indians, was acquitted last week by a jury in the federal court at Carson City.

A two-ton boulder fell from an overhanging cliff upon a Great Northern train near Wenatchee, Wash., crashed through the roof of the express car and killed W. C. Dunbar, the express messenger.

While dining in a Reno restaurant, W. Reid closed his teeth on something hard while in the midst of an oyster stew. Investigation revealed that it was a pearl fully as large as a good sized pea, worth at least \$55.

The condition of Daniel Muldoon of Carson, Nevada, who was seriously injured by being kicked by a horse, is reported to be satisfactory and it is said that he has a good chance for recovery. His skull was fractured.

E. S. Kendrick, who was paroled from a life sentence at the state prison last June, died at Carson City, Nevada, last week after lingering for several days with pneumonia. The deceased was 70 years of age and was an old soldier.

While being conveyed to a doctor's office for treatment as the result of stepping off a moving automobile and landing on his head, neck and shoulders, Arnold Millard, a Carson City plumber, met with the second auto accident on the same day, but will recover.

Last week a valuable stallion belonging to S. Johnson of Redhouse, Nevada, showed symptoms of rabies and was shot by its owner. The animal is reported to have received a wound on the leg some time before and since that time the horse became "loco."

On nearly all of the points involved the supreme court of New York has sustained the findings and decisions of the Nevada courts in the divorce case of Mrs. Gertrude Tiedmann, which gives the latter a large interest in the former husband's estate which is estimated to be worth about two millions of dollars.

Using a shotgun as the signal for stopping his victims and a revolver as the argument in making them keep their hands up while he took their valuables from them, a highwayman put in a busy half hour on the county road a few miles from Sunriver, Mont., and got more than \$40 in cash and two watches for his pains.

Professor G. C. Emery, founder of the Harvard military school at Los Angeles, is one of the recently enrolled students at the Tonopah school of mines. The professor is 72 years of age and is said to have decided that mining and metallurgy shall be his life work, hence his preparation for what he believes will be a long and prosperous career.

Delegates from the University of Oregon, University of Washington, University of California and Oregon Agricultural college to the Pacific northwest conference at the end of a secret conference at Portland, formed a new Pacific coast conference, with the four institutions represented. A schedule of football games was adopted whereby each plays the other in 1916.

Persistent reports are going the rounds that George Wingfield of Reno is preparing to finance the beet sugar factory at Fallon, Nevada, for the 1916 campaign, and the financial tangle that has threatened to close the institution bids fair to be averted if all reports be true.

Governor Boyle of Nevada received a telegram from Henry Ford asking him to join the peace party which he is organizing to visit Europe in the interest of peace, but the governor was obliged to decline owing to pressure of business.

AID THE KIDNEYS

Pioche Sufferers Should Take No Further Risk

Why will people continue to suffer the agonies of kidney complaint, backache, urinary disorders, lameness, headaches, hanger—why allow themselves to become chronic invalids, when a tested remedy is offered them? Doan's Kidney Pills have been used in kidney trouble over 50 years, have been tested in thousands of cases. If you have any, even one of the symptoms of kidney diseases, act now, for gravel, dropsy or Bright's disease may set in and make neglect dangerous. Can Pioche residents demand more convincing proof than the following?

Robert Ferguson, North C St., Virginia City, Nev., says: "I suffered from kidney complaint, brought on by my work in the mines. The kidney secretions were highly colored and contained sediment. I also had lumbago. Doan's Kidney Pills quickly relieved me."
Price 50c at all dealers. Don't simply ask for kidney remedy—get Doan's Kidney Pills—the same that Mr. Ferguson had. Foster Milburn Co., Props, Buffalo, N. Y. Advt.

Panaca

PANACA, Nev. Dec. 10—Commissioner John Wedge left here today for his home in Alamo, after attending the monthly meeting in Pioche.
Geo. Syphus and B. Shatz went to Eagle Valley Monday on business. They will return the later part of the week.

Mrs. H. B. Redford arrived here last Thursday from Pocatello, Idaho, to visit with her sister Mrs. H. H. Lee and other relatives.

Mrs. E. D. Smiley and Mrs. Geo. Reynolds went to Caliente Tuesday, the former to see the dentist.

Jos. Ronnow went to Pioche Wednesday on business, returning the same day.

A. G. Blad has returned from Delamar where he has been employed building a reservoir.

SINCE TAKING PERUNA

I can say my
bowels are much
more regular.
My heart is
stronger.
My appetite is
much better.
My throat is
much better.

Mrs. William H. Hinchliffe, 20 Myrtle St., Beverly, Mass., writes: "I have taken four bottles of Peruna, and I can say that it has done me a great deal of good for catarrh of the head and throat. I recommend Peruna to all sufferers with catarrh. I do not think I ever felt much better. I am really surprised at the work I can do. I do not think too much praise can be said for Peruna."

Those who object to fluid medicines can now procure Peruna Tablets.

MINES AND MINING

One ton of ore shipped sixty-five miles from the new camp of Divida to Elko, Nevada, brought \$232.

Shipments of ore from Park City mines the past week totaled 1,642 tons valued at \$65,000 compared with 1,535 the previous week.

The Seven Troughs Coalition last week mailed checks for 2 1/2 cent dividend, the fourth sent out this year. This is on 1,500,000 shares issued.

Business on the Salt Lake mining exchange during the past week showed an increase of \$45,000, and compared with the week before that, \$56,000.

Already the Boston Development company has shipped 140 tons of its high-grade galena ore down from the old Maxfield mine in big Cottonwood.

"Vienna is going to be as big a camp as there is in the country. It is going to have two or three, maybe five Minnie Moores," said Larry Bannon to the Wood River Times.

It was announced by the proprietors that a force of five men is now working at the Fortuna Independence in Beaver county, Utah. They are driving a tunnel in one place and sinking in another.

The Utah chapter of the American Mining congress has named eighteen delegates to represent the chapter at the convention on revision of mining laws, which meets at Washington, D. C., December 16.

That silver is destined to reach much higher levels within the next two years and that it is destined to remain at those levels are opinions being expressed by students of the varied uses to which the white metal is being put.

What will be the best kind of news for Park City in a mining sense is the fact that the Silver King Consolidated has closed a deal for the site for their proposed tunnel, and that work will commence in the very near future, says the Park Record.

The Anaconda Copper Mining company has opened one of the finest bodies of copper glance ore in the district on the 2,200-foot level of the Badger State mine, where a shoot in the State vein about four feet wide has been cut, says the Butte Miner.

Only a few miles out from the Utah state line is the rather live camp of Boneta, eight miles west of Garrison, Utah, but within the confines of White Pine county, now in the limelight as a producer of chertite ores and concentrates, says the Ely Record.

That the prospects of getting ore in paying quantities are growing brighter each day is indicated by the increased mineralization in the tunnel being driven on the Baker Mining company's property, located in the Big Cottonwood district, near Salt Lake.

During the last fifteen years the Prince William Sound region, Alaska, has become an important copper-producing district, and the number of productive mines there is constantly increasing. The Elamar district, a part of this region, has been the scene of active mining since 1900.

Production of ore by the mines of Tintic in the month of November totaled 482 carloads. This is estimated at 24,100 tons valued at \$600,000. I compares with October's 643 carload, which, however, embraced five ship ping weeks against November's four and 506 cars in September.

Bingham, "the old reliable" camp, situated only twenty-five miles southwest from the center of Salt Lake City, has a total dividend record of \$38,470,000, a production record of \$442,350,000, and still has more than 500,000,000 tons of ore untouched in just one of the properties.

As evidence of the strong position of the copper market a number of producers report they have sold their production for the next four months. A great deal of copper has been sold for April delivery. Spot copper is scarce and most companies will enter the new year with little, if any, surplus.

One of the biggest traders in silver in New York says: We are very bullish on silver after the close of the war. We expect a moderate advance at present, inasmuch as India this season has bought no silver and as the requirements of England and France and other countries for coinage purposes is great.

The new main vertical three-compartment shaft on the United Eastern, at Kingman, Arizona, through which will be largely handled the enormous tonnage of ore already blocked out to a depth of 565 feet by workings from the old shaft, has nearly reached the thirty-foot point. At the collar a 200-ton gravity feed bin is being erected.

There is a portion of the United Verde mine at Jerome, Ariz., that has been on fire for the past thirteen years and has defied all efforts to put it out, says the Arizona state bureau of mines. That portion of the mine is bulkheaded off, and the rest of the property is working along as though no fire existed. The fire is visible from the surface by the smoke escaping through the seams and openings.

Shipments of ore from the mines of Tintic last week totaled 136 carloads estimated at 6,800 tons and valued at \$170,000. This is compared with the production previous week of 139 carloads. There were eighteen different shippers in the list, which is more than the ordinary.

Twenty tons of ore as a test lot has been shipped to Salt Lake from Elko county by the Nevada Dividend Mining company, and when sampled it was found to carry 60.55 per cent lead and eight ounces silver. This ore is worth \$55 a ton, or \$1,000 for the small cas-
